# COVID-19 IS TREATABLE
EARLY TREATMENT WORKS!

Treating symptoms as early as possible can help prevent COVID-19 from progressing.

Prepare a 'just-in-case' kit to have on hand as soon as you begin to feel ill.

The FLCCC has a list of health care providers who can help you assemble what you need.

Ask your provider about the I-MASK+ protocol for at-home early treatment.

Visit FLCCC.net for more details
